

MANGO TO GO WINS Food Challenge Award 2011!

New Mango to Go was declared a winner at the prestigious national 2011 Food Challenge Awards held in Sydney on July 13.

Over 350 national food manufacturers gathered to celebrate the excellence in the Australian and New Zealand food and beverage processing, at the 7th annual Food Challenge Awards.

Ultimately, 15 products were recognised for best practice and innovation in the food and beverage industry. Brian Springell, founder of Earthcare Management Pty Ltd, was elated by the peer recognition for his first product release, Mango to Go.

'We were competing in the largest category, Organics and All Naturals, and against a number of excellent products. Being named the category winner is a reward for the hard work, determination and commitment to making the best possible product. It was exciting to receive such wonderful feedback from other food manufacturers and learn from their experiences' said Brian.

'We were competing in the largest category, Organics and All Naturals, and against a number of excellent products. Being named the category winner is a reward for the hard work, determination and commitment to making the best possible product. It was exciting to receive such wonderful feedback from other food manufacturers and learn from their experiences' said Brian.

'We are a fully integrated family operation. The premium mangoes picked on our North Queensland farm are then processed on-site to create Mango to Go. The full mango flavor is carried in an ice-cream like texture – with no additives, flavourings or preservatives. For mango lovers it really doesn't get much better – now it is so easy to enjoy 100% pure mangoes all year round without the mess. Even better, there is a Queensland mango in every tub' he added.
